

**15th July**  
is Note 2 Nurse day.

Its time to let them know.

Nurses, sometimes  
we are our own worst enemies.

But on July 15th, you have the chance to thank a nurse you  
admire.

Simply buy a small card and take a moment to write a  
message acknowledging their awesomeness.

Perhaps it's for their clinical support, or for a particular  
incident that stands out in your memory, or perhaps just  
because they are one of those quiet achievers who work so  
hard and never seem to get much recognition.

Be you a nurse, a doctor or someone else with a message. A  
short note of gratitude. You can sign it if you like or just make  
it anonymous.

Its time to let them know.

**Note2Nurse**  
**July 15th.**
